JAPANESE IRIS

"Aristocrats of the Iris Family"

Spring or Fall delivery From: J. Herbert Alexander, Middleboro, Mass.

MANADZURU. One of the finest double, or six petalled Irises in existance, in my opinion, and one of the latest of them all to blossom,- flowering a week to ten days later than many Japanese Irises. It is a tall, stately and vigorous grower, producing blossoms in July on stems 2½ to 3 feet tall. Blossoms are 6 to 7 inches or more across and are magnificently carried on sturdy stems. Its color is a very lovely clear, soft, lavender with richer, deeper lavender veins. Outstanding in every way and highly recommended. Heavy field-grown 2 yr. plants $2.00 ea., 3 for $5.75.

TEMPLETON. The nearest to red of any japanese Iris to my knowledge,- a real rich deep mulberry-red,-a most beautiful tone. Six petaled, grows about 30 inches tall, has gold markings near the center, a vigorous grower, highly recommended. Heavy field-grown 2 year plants $2.00 each, 3 plants for $5.75.

GERMAN IRISES

OLA KALA. The richness or great depth of color in this variety makes it one of the most outstanding of all yellow Irises,- so rich and so deep that it is almost an orange color. Tall, stately, gigantic and heavily ruffled blossoms, developing three to seven blossoms to a truss,- make this variety one of the most magnificent of June Irises. In height about 3 feet tall. Heavy field-grown 2 yr. plants 75¢ ea., 3 for $2.00.

RANGER. One of the richest and deepest colored in German Irises. A very deep maroon-red tone,- more maroon than red. Huge individual blossoms, developing 3 to 5 to a truss,- and of great beauty and richness. Very free flowering and long lasting blossoms produced all through June. Heavy field-grown 2 year plants $1.00 each, 3 plants for $2.75.

ROYAL SCOTT. Most distinctive, having a peppery effect,- a blending of coppery brown over an amber-gold tone. Difficult to describe but very different and attractive. Very large blossoms on 30 to 36 inch stems. Heavy field-grown 2 year plants $1.00 each, 3 plants for $2.75.

OTHER IRISES

IRIS CRISTATA ALBA. Dainty little midget Irises for the rock gardens,- exquisite pure white blossoms with gold markings. Blooms in late May on stems 2 inches tall. A rare gem in Rock Garden Plants.Heavy field-grown 2 year plants 75¢ ea., 3 plants for $2.00, 10 for $6.00.

IRIS PSEUDACORUS GIGANTEA. Called by some the yellow Iris, but it is not a Japanese Iris. Easy to grow and does well in a moist place but likes any type soil. Foliage is a rich heavy green, grows 2½ to 3 ft. tall, unusual rich yellow blossoms with blackish markings.June. Heavy field-grown 2 year plants 75¢ each, 3 for $2.00, 10 for $6.00.

NOTE: We grow other varieties of Irises and Rare Perennials. Please request prices of any in which you are interested. All plants are field grown and are dug fresh for each order. No charges for packing. TERMS: Cash with order... F.O.B. Middleboro, Mass... No C.O.D.'s... Our nursery is open daily until dark Mar. to Dec. weather permitting. Take auto route 28 (Cranberry Highway) to Cape Cod. Tel. 617-947-3397 (over)

HEMEROCALLIS
better day lillies

Spring or Fall delivery From: J. Herbert Alexander, Middleboro, Mass.

BUCKEYE. This June flowering day lily is one of the most attractive due to its most conspicuous markings. Its three lower petals are distinctively blotched and marked with rich, velvety-maroon splotches, making it a most spectacular innovation. A good sized flower of apricot-orange tone with maroon splotches, very abundant bloomer, vigorous, and about 30 inches tall. Long lasting blossoms extend its flowering season. Heavy field-grown 2 yr. old plants $1.00 each, 3 plants for $2.75, 6 plants for $5.00, 10 plants for $8.00.

HYPERION. (Stout) One of my favorites and one of the most beautiful of the Day Lilies, developing its mammoth blossoms from mid-July to mid- August on strong stems. The most beautiful rich lemon-yellow flowers imaginable. Blossoms are 5 to 6 inches across, petals are heavy in texture and of most exquisite form, stems are close to 3 feet tall. Highly recommended. Heavy field-grown 2 year plants $1.00 each, 3 plants for $2.75, 6 plants for $5.00, 10 plants for $8.00.

THERON. Late flowering maroon-reds are always outstanding, so this July and August flowering creation is particularly desirable. It is a stunningly rich, dark maroon-red with an orange colored throat,- one of the richest of colors! Stems are 2½ to 3 feet tall, blossoms are very large and abundant. Heavy field-grown 2 year plants $1.00 each, 3 plants for $2.75, 6 plants for $5.00, 10 plants for $8.00.

COLLECTIONS	1 each 3 varieties above (3 plants)	$ 2.75
	3 each 3 varieties above (9 plants)	8.00
	6 each 3 varieties above (18 plants	14.00

MIKADO. July flowering and most attractive day lily with apricot-orange blossoms whose three lower petals have deep crimson blotches or markings. Outstandingly spectacular! Grows 2½ feet tall. Very abundant bloomer. Heavy field-grown 2 year plants 75¢ each, 3 plants for $2.00.

PALE MOON. August flowering, a most lovely and beautiful clear soft pale yellow which is much lighter than "Hyperion". Very distinctive and desirable, about 30 inches tall, particularly lovely. Heavy field-grown 2 year plants 75¢ each, 3 plants for $2.00, 10 plants for $6.00.

WOLOF. A most unusual and majestic day lily, having rich coppery-bronze tones,- a very pleasing color. Blooms in July and August, very vigorous grower. Height close to 3 feet. Heavy field-grown 2 year plants are $1.00 each, 3 for $2.75, 6 plants for $5.00, 10 plants for $8.00.

COLLECTIONS	1 each 3 varieties above (3 plants)	$ 2.25
	3 each 3 varieties above (9 plants)	6.00
	6 each 3 varieties above (18 plants)	12.00

COLLECTIONS	1 each all six varieties above for	$ 4.75
	3 each all six varieties above for	13.50
	6 each all six varieties above for	25.00

TERMS: Cash with order, F.O.B. Middleboro, Mass. Minimum order $3.00 (over)
